The four of us all love to travel and have done a fair bit of it. During our trips, we have had the privilege of seeing and sometimes experiencing facilities and technology that we felt was missing here in Australia. We remember what it was like to discover these places and looking forward to going there and we wanted to create a facility that would fill our clients with that same high hopes, and deliver. An idea was born.

This vision combined with the boys' passion for the sport, drove many conversations and desires to build our dream facility that would excite and motivate. Our belief is that the minute you think you're working hard enough, you're not, hence our slogan 'Train Insane or Remain The Same'. It's time for us to create a culture of future athletes that live and breathe their passions and we want to give them a place that they can do that.
